Wentworth Has Another Football Scalp in Its Belt.

W. M. A. 21, BUCKNER 0

The mighty gridiron warriors from Buckner came to Lexington Saturday expecting to annex a game from the Wentworth team, The Bucknerites, who had not previously been scored on, had defeated the cadet scrubs earlier in the season by a score of 16 to 0 and hoped also to defeat the regulars. Their hope was not altogether unreasonable; for they were strong and fast. Their detense was the best that Wentworth has been up against this season. Their one weak point was the lack of variety of plays. They bucked the line with strength, zeal and concerted attack. In doing this they gained during the game over sixty yards; but their style is not the kind that wins this year against a team, such as Wentworth's, coached up to the minute.

The first half was a good exhibtion of hard football. Wentworth, defending the west goal received the the kickoff. By a swift and varied attack the cadets advanced the ball to Buckner's twenty yard line. After two ineffectual plays Brake scored four points on a place kick.

Then the visitors braced and for the rest of the half honors were about even. Neither team could make sufficient gains to get in sight of a touchdown. When the whistle blew Wentworth had the ball on Buckner's thirty yard line.

The second half was a replica of what has happened in several of the cadets' games this season. Their superior candition told. Five minutes after the balt started Cook tore across the line for a touchdown on an off Owens falled tackle play. to kick goal. After another brilliant series of gaining plays a few minutes afterward the younger Cook plunged through for another touchdown, Owens kicking goal. The last score was made by Chambers, who got into the middle of a Backner double pass and raced down the field for sixty yards. This with Owens' goal made the score 21 to 0. There was a misunderstanding about the time, the Buckner watch-holder claiming their half was over, while the Wentworth representative, stated that there were two and a half minutes still to play. But the game was stopped. Had the time contended for been played. Wyatt, who was getting ready to go in, would have probably made another score.

ABOUT ADVERTISING-NO. 4

The Hen and the Doorknob

By Herbert Kaufman

Once upon a time there was a fool hen who sat on a china doorknob for three weeks expecting to get a family. The only thing she did get was exberience.

The advertising field is full of "china doorknob propositions"-examples of merchants who expect good newspapers to hatch money out of bad egg business, or who put sound nest eggs under the wrong "advertising hen."

There are three principles to follow in an advertising campaign: First of all, find a business that will stand advertising; secondly, find the newspaper that will make the advertising pay; thirdly, give the newspaper time to pay.

You can't start in to breed dollars in less time than it takes to hatch them any more than you can pull a hen off the nest before she has had a chance to incubate. In both cases you simply waste what has been invested. If you stop too soon you will get a rotten egg instead of a chicken.

Advertise something out of which you may reasonably expect returns, and when you have found what to advertise, take care that you place your copy in a newspaper that can turn the trick. Don't delude yourself with a china doorknob, and don't confuse a "rooster newspaper," which spends its time cock-a-loruming, for a "hen newspaper" that is too busy hatching out dollars to strut about crowing.

"It's the Baking Powder, - not much like your old-style kind that cost three times as much and wasn't half as good."

"Well, it's just wonderful. Everything you make is light as a feather and the best I ever tasted. In my time, I thought I was a fine cook when I could get a cake to look like that. And to think it always comes out right! How foolish I've been to stick to the high-priced kind,-forty or fifty cents a pound and no better than they were fifty years ago!"

Baking Powders have improved along with everything else in the last fifty years. We guarantee that today the Best at Any Price is

The modern, up-to-date leavener, the summit of perfection in Baking Powder.
